

Technical Bulletin

LS50 Series Terminal Block with New Cover

12th February 2015

The terminal block with protective cover on the LS50 range has been changed as shown below.

Series	Barrier Strip Terminal Block	
	Current	New
LS50	DT-49-C01W series	T950C series

This is effective immediately for all new production.

It is possible that you may receive a mix of the two types from our warehouse in the short-term as some existing stock may have the old version.

We apologise for any inconvenience caused.

For further assistance, please contact your nearest TDK-Lambda Sales Office.

Yours faithfully

David Buck
Market Development Manager
